Social-Emotional

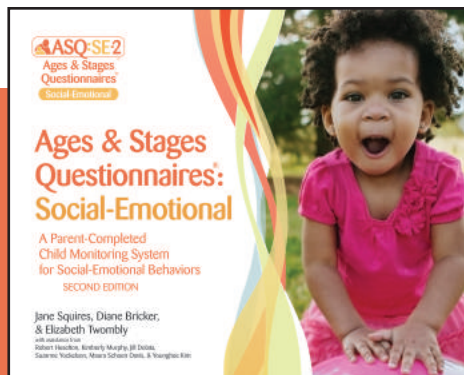

SECOND EDITION

Ages & Stages Questionnaires®: Social-Emotional, Second Edition (ASQ®:SE-2)

A Parent-Completed Child Monitoring System for
Social-Emotional Behaviors

By Jane Squires, Ph.D., Diane Bricker, Ph.D. & Elizabeth Twombly, M.S.

ASQ:SE-2 AT A GLANCE

Type of screening	Social-emotional screening
Areas screened	Self-regulation, compliance, social-communication, adaptive functioning, autonomy, affect, and interaction with people
Age range	1–72 months
Number of questionnaires	9
Age intervals (in months)	2, 6, 12, 18, 24, 30, 36, 48, and 60
Number of items	About 30 per questionnaire
Sample item	Does your child let you know how he is feeling with words or gestures? For example, does he let you know when he is hungry, hurt, or tired? (24-month questionnaire)
Reading level of items	4th to 6th grade
Who completes it	Parents (professionals may also if they know the child well)
Time to complete	10–15 minutes
Who scores it	Professionals (teachers, child care providers, nurses, home visitors, social workers, early interventionists, clerical staff, pediatricians, and more)
Time to score	2–3 minutes
Scores provided	One raw score
What the score tells you	The raw score is compared to cutoff points, which show whether the child may need further assessment, should be monitored and rescreened, or is doing well.
Photocopiable	Yes
Languages	English and Spanish
Training	Not required but encouraged! Training DVD is available for purchase as well as in-person introductory and train-the-trainer seminars through Brookes On Location.
Standardization sample	16,424 questionnaires for 14,074 children from diverse racial and socio-economic backgrounds
Reliability	.89
Validity	.84
Sensitivity	.81
Specificity	.83
Years in development	21 years
