

## HANDS-ON LEARNING SESSIONS

Led by experienced and engaging Implementation Specialists, these 1-day interactive Learning Sessions will teach you everything you need to know in order to effectively and efficiently use ASQ® Online!

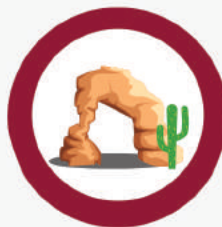

### Learn how to:

- set up an account
- manage participant data
- manage screenings
- communicate with families
- use Family Access to share results with families
- use reports and analyze data
- use support systems to find resources

These learning sessions are suitable for every level of ASQ Online user, including administrators and providers. New users will learn how to integrate the online system with their current processes and existing users will get tips on how to better utilize their system to get the maximum benefit.
