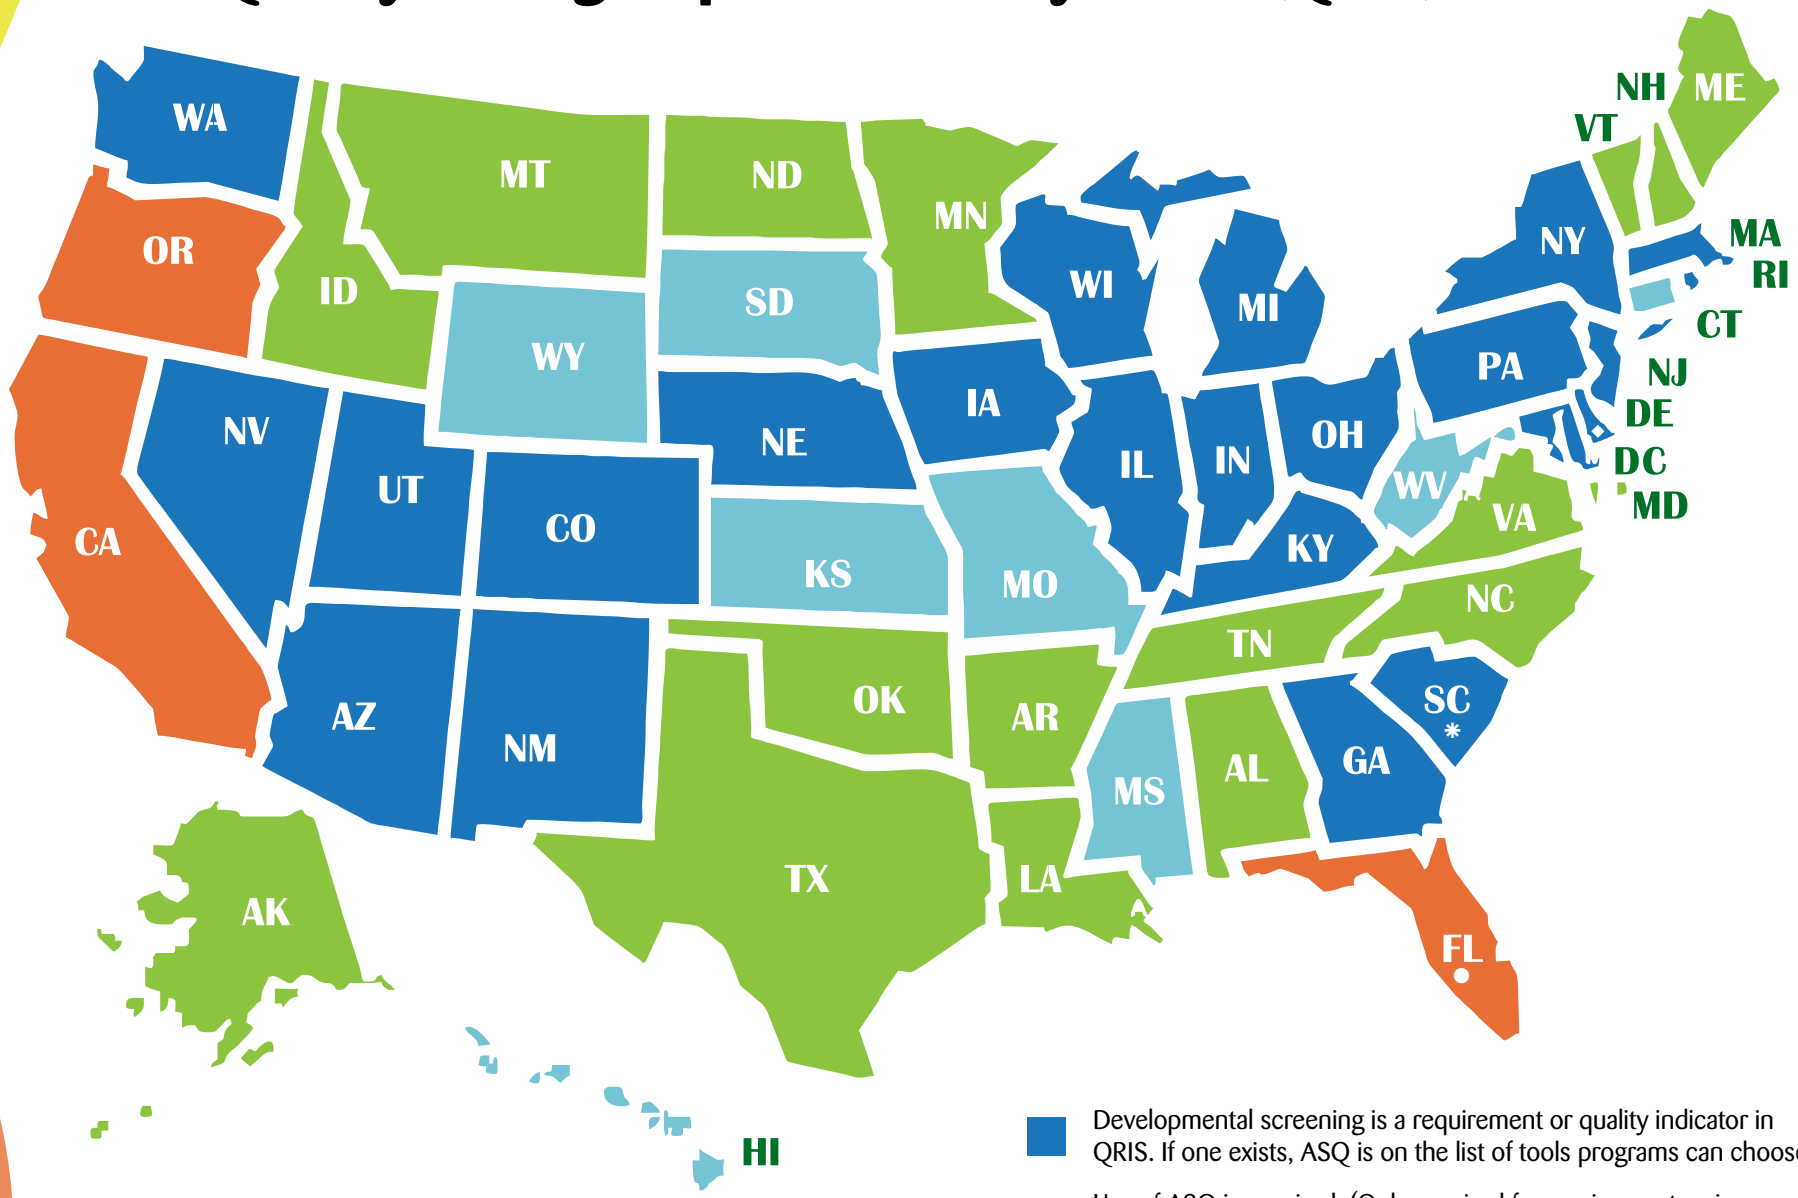
Developmental Screening in Quality Rating Improvement Systems (QRIS)



- ◆ The program selects the screener, but the state supports the programs to use ASQ by offering no cost training, free materials, and access to the ASQ Online database.
- ✱ Training and online access for ASQ provided to child care providers throughout the state.
- ● Guiding Stars Duval 3.0 and Strong Minds require use of ASQ.

- Developmental screening is a requirement or quality indicator in QRIS. If one exists, ASQ is on the list of tools programs can choose.
- Use of ASQ is required. (Only required for maximum stars in some states).
- Developmental screening is not included in QRIS.
- No QRIS or QRIS is in the planning stage in the state.
