

An Introduction to Ages & Stages Questionnaires[®], Third Edition (ASQ[®]-3)

Topics

- ASQ-3 in a Nutshell
- About Developmental Screening
- ASQ-3 Products
- ASQ-3 Content
- Screening in 3 Simple Steps
- Support and Resources

ASQ-3 in a Nutshell

- Third edition of widely used developmental screening tool
- Series of illustrated parent- or caregiver-completed questionnaires
- Accurately identifies children who may be at risk for developmental delays
- Encourages parent involvement, education, and communication

Developmental Screening

- Brief “snapshot” of a child’s current skills using a validated tool
- Used to identify
 - Children who are developing on schedule
 - Children who would benefit from practice or support
 - Children at risk for developmental delays who should be referred for further evaluation
- Differs from diagnostic or ongoing assessment
 - Diagnostic: complex evaluation that may identify specific developmental disabilities
 - Ongoing: in-depth look at child’s skills and knowledge, used to identify targeted goals and objectives and help with program planning

Benefits of Screening

- To detect delays early
- To improve child outcomes
- To celebrate children's milestones
- To encourage parent involvement and education
- Because screening is recommended by major educational and medical organizations, such as American Academy of Pediatrics

ASQ-3 Product Suite

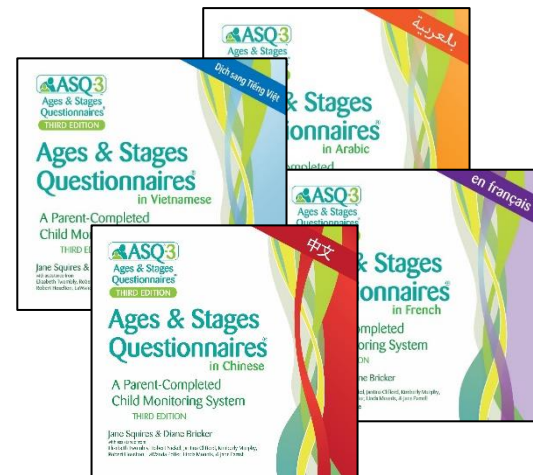

- Starter Kit (English or Spanish)
 - User's Guide: how-to instructions, strategies for working with families, technical report, intervention/play activities
 - Questionnaires: print/CD-ROM masters
 - Quick Start Guide: key on-the-spot information to support implementation
 - Keycode: unlocks ASQ-3 content in ASQ Online
- ASQ Online
 - Enterprise: screening/data management
 - Family Access: family completion

ASQ-3 Product Suite

- Translations
 - CD-ROM masters of questionnaires
 - Keycode: unlocks access in ASQ Online
 - Available in Arabic, Chinese (simplified and traditional characters), French, and Vietnamese

- Learning Activities (English or Spanish)
 - 400+ activities to share with parents
 - Align with 5 developmental areas on ASQ-3
 - Sheets by age: print/CD-ROM masters
 - Keycode: unlocks access in ASQ Online

ASQ-3 Development

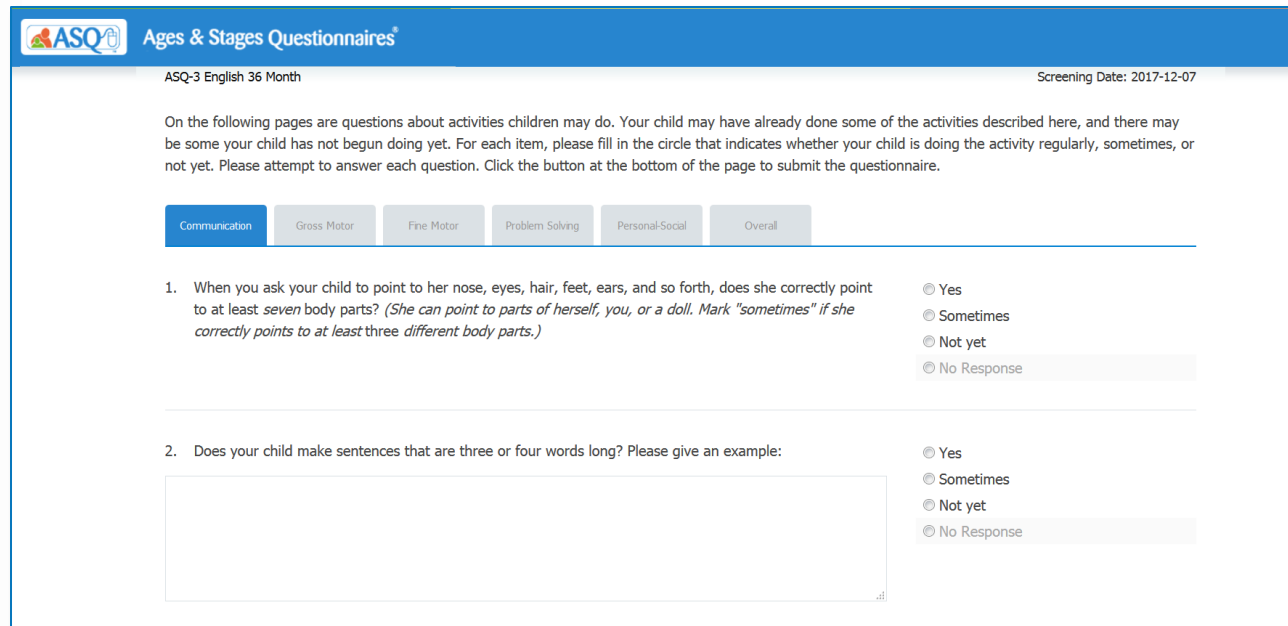

- Work on ASQ began in 1980 at University of Oregon
- First edition published in June 1995
- ASQ-3 published in June 2009
- Decades of research with more than 200 articles in peer-reviewed journals

ASQ-3 Content

- 21 age-specific questionnaire intervals
 - 2–24 months (2 months apart),
 - 27–36 months (3 months apart)
 - 42–60 months (6 months apart)
 - Corrected date of birth for children born more than 3 weeks premature for up to 2 years of age
 - ASQ Online calculates age, selects correct questionnaire
- 5 developmental areas
 - Communication
 - Gross Motor
 - Fine Motor
 - Problem Solving
 - Personal-Social
- Written at 4th–6th grade reading level

ASQ-3 Questionnaire Items

- 6 questions per area
 - Hierarchical order, from easiest to hardest
 - #5 and #6 are average skills for age interval
 - Response options: *Yes* (10), *Sometimes* (5), *Not Yet* (0)

The screenshot shows the ASQ-3 English 36 Month questionnaire interface. At the top, there is a blue header with the ASQ logo and the text "Ages & Stages Questionnaires". Below the header, the title "ASQ-3 English 36 Month" and the "Screening Date: 2017-12-07" are displayed. The main content area contains instructions: "On the following pages are questions about activities children may do. Your child may have already done some of the activities described here, and there may be some your child has not begun doing yet. For each item, please fill in the circle that indicates whether your child is doing the activity regularly, sometimes, or not yet. Please attempt to answer each question. Click the button at the bottom of the page to submit the questionnaire." Below the instructions, there are six tabs: "Communication", "Gross Motor", "Fine Motor", "Problem Solving", "Personal-Social", and "Overall". The "Communication" tab is selected. The first question is: "1. When you ask your child to point to her nose, eyes, hair, feet, ears, and so forth, does she correctly point to at least seven body parts? (She can point to parts of herself, you, or a doll. Mark 'sometimes' if she correctly points to at least three different body parts.)". The response options are: Yes, Sometimes, Not yet, and No Response. The second question is: "2. Does your child make sentences that are three or four words long? Please give an example:". The response options are: Yes, Sometimes, Not yet, and No Response. There is a text input field for the example.

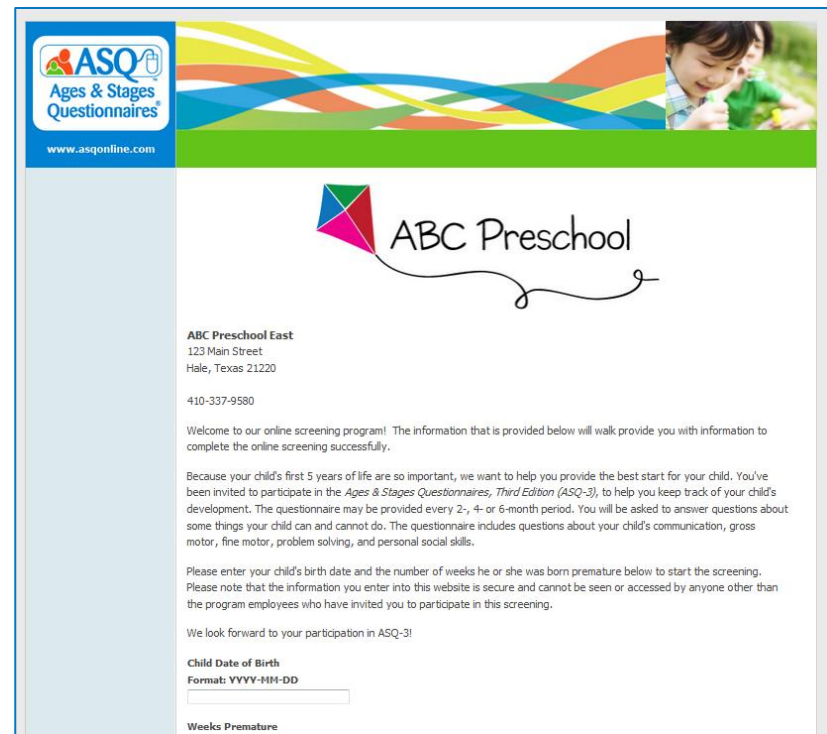

ASQ-3 Questionnaire Items

- Overall section
 - Looks at quality of skills
Example: “*Does your baby use both hands equally well?*” “No” response indicates possible cerebral palsy—important to follow up
 - Response options: *Yes* and *No* (unscored)
 - Parent concerns are very predictive—any concerns or questionable responses require follow-up

ASQ-3 Screening in 3 Simple Steps

Step 1: Try items/answer questions

- Parents follow link to Family Access
- Parents can easily try activities with their child to answer questions
- Parents complete questionnaire using simple responses (*Yes, Sometimes, Not Yet*) and submit securely online

A screenshot of the ASQ-3 online screening program interface. The top left corner features the ASQ-3 logo and the website address 'www.asqonline.com'. The main header area has a colorful, abstract background with a photo of a young child. Below the header, the text 'ABC Preschool' is written in a cursive font, accompanied by a colorful kite icon. The interface includes contact information for 'ABC Preschool East' (123 Main Street, Hale, Texas 21220, 410-337-9580) and a welcome message. It also contains a paragraph explaining the purpose of the screening and a section for entering the child's birth date and weeks premature, with a text input field for the birth date and a label for the weeks premature field.

Welcome to our online screening program! The information that is provided below will walk provide you with information to complete the online screening successfully.

Because your child's first 5 years of life are so important, we want to help you provide the best start for your child. You've been invited to participate in the *Ages & Stages Questionnaires, Third Edition (ASQ-3)*, to help you keep track of your child's development. The questionnaire may be provided every 2-, 4- or 6-month period. You will be asked to answer questions about some things your child can and cannot do. The questionnaire includes questions about your child's communication, gross motor, fine motor, problem solving, and personal social skills.

Please enter your child's birth date and the number of weeks he or she was born premature below to start the screening. Please note that the information you enter into this website is secure and cannot be seen or accessed by anyone other than the program employees who have invited you to participate in this screening.

We look forward to your participation in ASQ-3!

Child Date of Birth
Format: YYYY-MM-DD

Weeks Premature

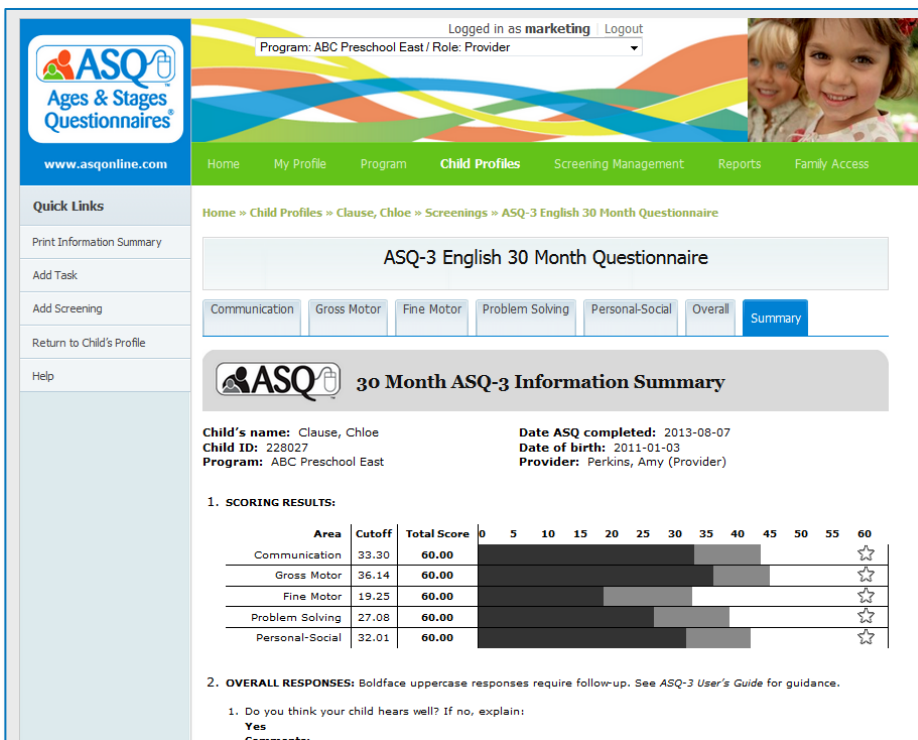

ASQ-3 Screening in 3 Simple Steps

Step 2: Score questionnaire

- ASQ Online notifies program when questionnaire is submitted
- ASQ Online scores questionnaire

Step 3: Review results

- ASQ Online provides Information Summary with results and scores
- Providers interpret results and determine follow-up

ASQ-3 English 30 Month Questionnaire

Communication Gross Motor Fine Motor Problem Solving Personal-Social Overall **Summary**

ASQ-3 30 Month ASQ-3 Information Summary

Child's name: Clause, Chloe
Child ID: 228027
Program: ABC Preschool East

Date ASQ completed: 2013-08-07
Date of birth: 2011-01-03
Provider: Perkins, Amy (Provider)

1. **SCORING RESULTS:**

Area	Cutoff	Total Score	0	5	10	15	20	25	30	35	40	45	50	55	60
Communication	33.30	60.00	[Progress bar showing score of 60.00]												☆
Gross Motor	36.14	60.00	[Progress bar showing score of 60.00]												☆
Fine Motor	19.25	60.00	[Progress bar showing score of 60.00]												☆
Problem Solving	27.08	60.00	[Progress bar showing score of 60.00]												☆
Personal-Social	32.01	60.00	[Progress bar showing score of 60.00]												☆

2. **OVERALL RESPONSES:** Boldface uppercase responses require follow-up. See ASQ-3 User's Guide for guidance.

1. Do you think your child hears well? If no, explain:
Yes
Comments:

ASQ-3 Results

1. SCORING RESULTS:

Area	Cutoff	Total Score	0	5	10	15	20	25	30	35	40	45	50	55	60
Communication	33.19	60.00													
Gross Motor	31.28	60.00													
Fine Motor	26.54	60.00													
Problem Solving	29.99	55.00													
Personal-Social	39.07	55.00													

- Stars indicate child's score in each area—higher scores are better
 - Scores in light area indicate child is developing typically
 - Scores in gray area indicate child should be monitored and rescreened in a few months
 - Scores in dark area indicate child may be at risk for developmental delays and should be referred for further assessment
- Review all sections of Information Summary
- Check scores, Overall responses, interpret results, consider follow up

ASQ-3 Technical Information

- Standardization based on 18,572 questionnaires for 15,138 children (an exceptionally large standardization sample)
- The sample mirrors the demographic mix of the U.S. population and includes underserved populations and children of all socioeconomic statuses
- Strong technical data
 - Reliability
 - Test-retest: 0.92 (excellent)
 - Inter-rater: 0.93 (excellent)
 - Validity: 0.82 to 0.88 (excellent)
 - Sensitivity: 0.86 (excellent)
 - Specificity: 0.85 (excellent)

ASQ[®] News & Updates | May 2021

Hello Amy –

This month we're focusing our ASQ lens on supporting child development, with a new article on how the ASQ system educates families about healthy development, plus instructive handouts featuring developmental milestones and growth-nurturing activity ideas for parents and caregivers. Plus, see practical guidance for sharing ASQ[®]-3 and ASQ[®]:SE-2 screening results and more!

How the ASQ System Teaches Parents & Families About Child Development

The pandemic has helped illustrate just how much healthy child development
