

Hello Niya —

In this year's final issue of Kansas Kindergarten Readiness Snapshot News & Updates, we're sharing guidance on how to finalize screenings in ASQ Online®, a brief training module that will help you harness ASQ Online's powerful reporting capabilities, tips for turning screening data into meaningful instruction, and much more.

Important reminder: All Kindergarten Readiness Snapshot data—including questionnaires administered via paper, pending Family Access screenings, and any child profiles noting the reason for not participating—must be entered into ASQ Online by Friday, September 26.

One of ASQ's greatest strengths is the rich data it provides. With built-in reports in ASQ Online, teachers can easily interpret screening results to help tailor instruction and create supportive learning environments for all students.

Use the ASQ-3 Screenings Below Cutoff by Area and ASQ:SE-2 Screenings Above Cutoff reports to:

- ✓ Plan extra classroom activities to target developmental areas where multiple children need support.
- ✓ Arrange your classroom to emphasize areas where children need more practice. (For example, make sure your writing center has lots of space and materials if many children need to work on fine motor skills.)

[GET TIP SHEET](#)

As the deadline for the Kindergarten Readiness Snapshot window approaches, make sure all screenings are finalized and accepted in ASQ Online. This tip sheet will walk you through:

- Accepting Family Access screenings
- Finalizing In-Progress paper screenings

Use it to ensure all screening data for kindergarten students is entered by Friday, September 26.

Now That Screenings Are In: Let's Review the Results
Now that screenings are complete—what's next? With all screenings submitted, it's time to review your students' results and identify next steps. Not sure where to begin in ASQ Online? Start with the **ASQ-3 and ASQ:SE-2 Screening Scores Reports**. These reports show each child's individual scores alongside the corresponding cutoff scores, giving you a clear picture of their developmental progress.

Need help understanding all the reporting options available? Download the **Reports Guide** for a quick overview of every report in ASQ Online and how to use them effectively.

How to Use ASQ Data Like a Pro
Once you have your scores in hand, what's next? This 30-minute training module will show you how to interpret your ASQ data with confidence. Learn how to:

- ✓ Navigate ASQ Online's reporting options
- ✓ Create charts and graphs from your screening data
- ✓ And more!

Watch the module to make the most of your data and guide meaningful next steps.

Looking for simple, effective ways to support student development? Each issue includes a free, ready-to-use activity you can try in your classroom or share with families and caregivers to reinforce classroom learning. Every activity is aligned with [Kansas Early Learning Standards](#).

[SEE THE ACTIVITY](#)

The beginning of each school year creates new opportunities to build relationships with students and families. As we approach the end of this year's Kindergarten Readiness Snapshot, thank you for your hard work to make the 2025-2026 school year a great one for our youngest learners.

This is a good time to double-check your ASQ data to confirm you have a completed ASQ-3 and ASQ:SE-2 screening for each enrolled kindergarten student. If you have some families who have not yet completed the ASQ, you do still have until Sept. 22 to complete screenings. If you have children who did not participate because screening was inappropriate, or because the child was older than 77 months and 30 days, or because the family opted out, please ensure you've created a Child Profile and filled in the appropriate "Reason for Not Participating." The sooner districts finish reporting data in ASQ Online and finalize the Count Day enrollment, the sooner KSDE can provide back analyzed Kindergarten Readiness Snapshot data for this year in the KSDE Kindergarten Readiness Snapshot authenticated application.

This is also a good time to reflect on this year's Kindergarten Readiness Snapshot. What went well? What might you do differently next year?

Remember that the [Kindergarten Readiness Snapshot Fact Sheet](#) includes helpful action items and resources so that you can use this data in a meaningful way. KSDE and the Kansas Parent Information Resource Center will offer an "Introduction to ASQ" live virtual training on Sept. 18 from 1:00 - 3:30 p.m. - [register at ksdecan.org/events](#).

Please do reach out to Amanda Petersen (Amanda.Petersen@ksde.gov) and Stacy Clarke (Stacy.Clarke@ksde.gov) if we can provide any assistance. We're more than happy to help ensure your data is finalized or to think through how you might improve your Kindergarten Readiness Snapshot for future years.
