

Turn Data Into Action with **ASQ Online**

ASQ Online helps you see what your screening data is telling you—and transform it into action to help all the children in your program make progress. With ASQ Online, you'll have the best and easiest way to track child development, from big-picture trends across programs to a single child's small steps of progress.

Programs love the insights they get from ASQ Online!

"Online data management allows each participating site...to **use screening data to inform their curriculum development**, thereby creating program services to meet the unique needs of each child." —Shannon Ellison, The Collaboration for Early Childhood

"[Teachers] use the data at their first professional learning community of the year to **discuss teaching strategies** for each child and determine which classrooms **may need additional paraprofessional support**." —Penny Stoss, assistant superintendent at USD 309, Kansas

"ASQ Online allows us to **easily run a wide range of reports** that would be cumbersome with paper forms." —Kelly Friedland, a data specialist with Michigan's Jackson County Intermediate School District

"[ASQ Online] has **significantly, positively impacted** how we serve children, communicate with families, collaborate with child cares, and retain and review data." —Dawn E. Alexander, M.Ed., Preschool Coordinator, Colonial School District, Delaware
