3. ASQ SCORE INTERPRETATION AND RECOMMENDATION FOR FOLLOW-UP: You must consider total area scores, overall responses, and other considerations, such as opportunities to practice skills, to determine appropriate follow-up.

If the child's total score is in the *no or low risk* area, it is above the cutoff, and the child's development appears to be on schedule.
If the child's total score is in the *monitor* area, it is close to the cutoff. Provide learning activities and monitor.
If the child's total score is in the *refer* area, it is below the cutoff. Further assessment with a professional may be needed.
